

## **Ceragon Elaborates on Collaboration with Alvarion**

TEL AVIV, Israel, October 12, 2009 - Ceragon Networks Ltd. (NASDAQ and TASE: CRNT), a leading provider of high-capacity wireless backhaul solutions, today clarified the status of its collaboration with Alvarion Ltd. (NASDAQ:ALVR) with respect to supplying wireless backhaul equipment for Open Range Communications' network deployment in rural America.

Pursuant to purchase orders and agreed terms with Alvarion, Ceragon has shipped 19 links of its high-capacity backhaul solution and some of them have been installed as part of the Open Range network deployment. Ceragon has become aware of a new evaluation process for backhaul network equipment for the Open Range network and regrets any confusion.

### **About Ceragon Networks Ltd.**

Ceragon Networks Ltd. (NASDAQ and TASE: CRNT) is a leading provider of high capacity wireless backhaul solutions that enable wireless service providers to deliver voice and premium data services, such as Internet browsing, music and video applications. Ceragon's wireless backhaul solutions use microwave technology to transfer large amounts of network traffic between base stations and the infrastructure at the core of the mobile network. Ceragon designs solutions to provide fiber-like connectivity for circuit-switched, or SONET/SDH, networks, next generation Ethernet/Internet Protocol, or IP-based, networks, and hybrid networks that combine circuit-switched and IP-based networks. Ceragon's solutions support all wireless access technologies, including GSM, CDMA, EV-DO and WiMAX. These solutions address wireless service providers' need to cost-effectively build-out and scale their infrastructure to meet the increasing demands placed on their networks by growing numbers of subscribers and the increasing demand for premium data services. Ceragon also provides its solutions to businesses and public institutions that operate their own private communications networks. Ceragon's solutions are deployed by more than 150 service providers of all sizes, as well as in hundreds of private networks, in nearly 100 countries.
